RENSON **ELECTRONICS**

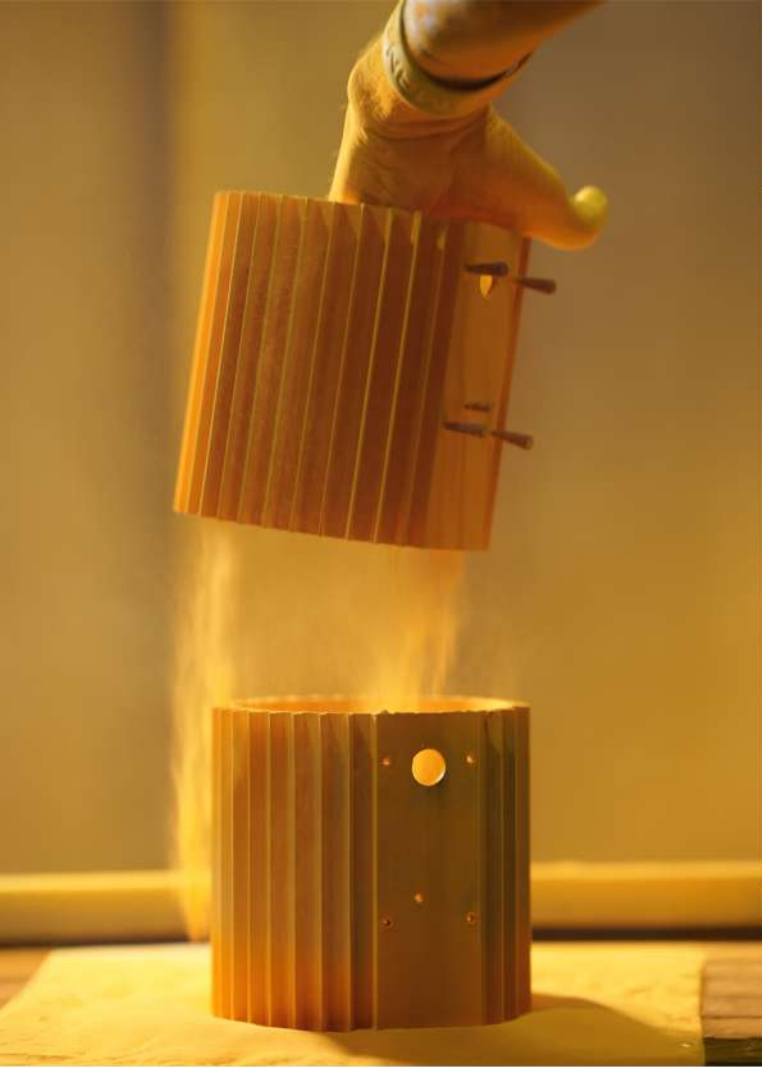

VOLTAGE STABILIZER | BATTERY CHARGER | POWDER COATING

About Us

- ✓ MSME Registered – Established in December 1989, promoted in 1986
- ⚡ Product Range – Specializes in Voltage Stabilizers & Battery Chargers (0.2 KVA to 10 KVA)
- 🔧 Wide Voltage Compatibility – Operates within 100V to 270V input range
- 🔧 Diversified Services Since 2001 – Expanded into Powder Coating
- 🚀 Evolving with Industry Needs – Continuously upgrading capabilities to serve diverse sector

OUR FACILITIES

Unit I – Nehru Nagar, Coimbatore (5,000 sq. ft.)

- Stabilizer & Charger Manufacturing
- Powder Coating for medium-sized components
- Fully equipped with utilities and support infrastructure

Unit II – Serayampalayam, Coimbatore (10,000 sq. ft.)

- Specializes in powder coating for large components (up to 12 ft)
- Includes a 7-tank pre-treatment line
- Strategically located near COINDIA Foundry Division

OUR SERVICES

ELECTRONIC DIVISION

Voltage Stabilizer (TV)

CAPACITY: 0.3KVA, 0.7KVA
NORMAL RANGE - 170V - 260 V
WIDE RANGE : 140V - 260V

PROTECTION:
HIGH AND LOW VOLTAGE TRIP

V. Stabilizer (FRIDGE)

CAPACITY: 0.5 KVA, 1 KVA
NORMAL RANGE - 170V - 260 V
WIDE RANGE : 140V - 260V

PROTECTION:
HIGH AND LOW VOLTAGE TRIP

Voltage Stabilizer (AC)

CAPACITY : 4KVA, 5 KVA
NORMAL RANGE - 170V - 260 V
WIDE RANGE : 140V - 260V

PROTECTION:
HIGH AND LOW VOLTAGE TRIP

Battery Charger

CAPACITY : 12V - 5A/10A ,
24V,26V,48V,72V,96V,
5A/10A/15A/20A

CONTROL : 4 STEP OR 8 STEP
FINE CONTROL FOR CHARGING
CURRENT

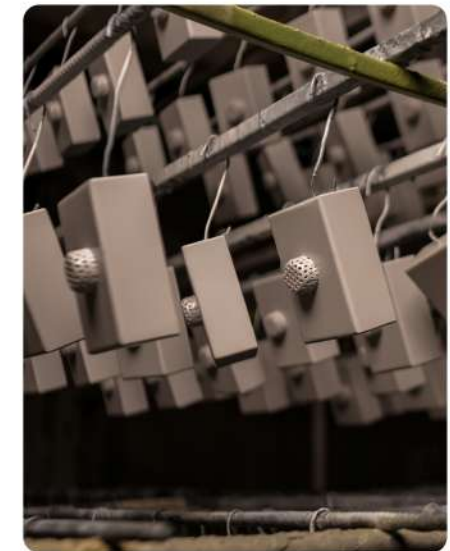

POWDER COATING DIVISION

Electrical Pannel Board

Aluminium Motor Body

Small Components

MACHINERY & TECHNOLOGY

Coil Winding Machines
(Single & Three Phase)

ITW Gema Spray Guns

Air Compressor

Spray Booths

Mechanized Overhead
Monorail System

Expandable Gas Oven

End-to-End Process

Material Inward → Inspection (Checking) → Degreasing → Water Rinse →
De-rusting (Pickling) → Water Rinse → Activation → Phosphating → Passivation
→ Drying → Coating → Baking (Curing) → Quality Check → Material Dispatch
